TERMS AND CONDITIONS

This order is subject to the following terms and conditions:

1. The seller reserves the right to accept or reject this order and shall not be required to give any reason for non-acceptance.
2. This order when accepted by seller shall become a binding contract but shall be subject to strikes, lockouts, accidents, fire, delays in manufacture or transportation, acts of God, embargoes, or Governmental action or any other causes beyond the control of the seller whether the same as, or different from the matters and things hereinbefore specifically enumerated, and any of said causes shall absolutely absolve the seller from any liability to the purchaser under the terms hereof.
3. Except where title is transferred and the seller takes back a contract, title to and right of possession of said machines shall remain vested in the seller until all indebtedness and all sums due or to become due from the purchaser, whether evidenced by note, book account, judgment, or otherwise, shall have been fully paid, at which time ownership shall pass to the purchaser.
4. The seller's responsibility for shipments ceases upon delivery to transportation company, and any claims for shortages, delays or damages occurring thereafter shall be made by the purchaser direct to the transportation company.
5. The purchaser agrees that this order shall not be countermanded by him, and that when it is accepted (and until the execution and delivery of the contract or contracts and note or notes required to consummate the sale as above specified) it will cover all agreements between the parties relative to this transaction, and that the seller is not bound by any representations or terms made by any agent relative to this transaction which are not embodied herein.
6. When the machines necessary to fill this order are available, the buyer agrees on demand to execute and deliver to the seller such notes and contracts as may be required by the seller to evidence the transaction. In the event that the buyer fails to execute and deliver said notes and contracts to the seller, the entire balance of the purchase price shall at the seller's option become immediately due and payable.
7. The seller shall not be held liable or responsible for any damages, whether on account of personal injuries or otherwise suffered or sustained in the operation of said machine, nor for any damages resulting to the purchaser by reason of any delays or any alleged failure of said machine to operate, nor for any implied warranties. Any used or second-hand equipment included in this order is sold without any warranty whatsoever, express or implied (except that the seller warrants title), unless said warranty is set forth in full in the section on page 1 of this document entitled WARRANTY ON EQUIPMENT EXTENDED BY SELLER, USED EQUIPMENT and is initialed by both of the parties hereto.
8. The liability of said seller insofar as new Caterpillar Products (to include Machines, engines, Attachments and Parts manufactured by Caterpillar Tractor Co.), are concerned, shall be limited to the warranty which the buyer accepts in lieu of any and all warranties by the seller whether express or implied as set forth on Caterpillar Warranty Forms.
9. The liability of the seller insofar as all other new products (other than Caterpillar products), machines, engines, attachments and parts are concerned, shall be limited to the Manufacturer's warranty thereof, if any, and which the buyer accepts in lieu of any and all warranties by the seller, whether express or implied.
10. To the extent this equipment is equipped with a telematics system, such as Product Link, I understand data concerning this machine, its condition, and its operations is being transmitted by Product Link to Caterpillar and/or its dealers to better serve me and to improve upon Caterpillar products and services. The information transmitted may include: machine model, serial number, location, and operational data, including but not limited to: fault codes, diagnostic data, emissions data, fuel usage, service meter hours, software and hardware version numbers, and installed attachments. Caterpillar recognizes and respects customer privacy and will exercise reasonable efforts to keep the information secure. I agree to allow this data to be accessed by Caterpillar and/or its dealers.

HYDRAULIC DETACHABLE GOOSENECK TRAILER

TRAIL KING
industries

*Advantage*TM
Plus!

**Hydraulic Detachable
Gooseneck Trailer**

*Advantage*TM
Plus!
HDG Trailer

AdvantageTM
Plus!

Hydraulic Detach

New Arched Gooseneck Design

The new arched design provides ample truck frame clearance, even at the lowest king pin height setting. The gooseneck I-beam's web, top flange, and bottom flange feature one-piece construction for exceptional strength and durability. Externally mounted gooseneck stirrups are easy to service/replace.

5-Position Gooseneck Door Adjustment

The five-position adjustment allows for a full 8" range of king pin height settings. The notched setting control bar for the control handle takes the guesswork out of setting the gooseneck doors in the desired position.

Safety Lock

When the gooseneck cylinder doors are closed in the transit position, a safety pin automatically locks the main pin in place so that it cannot jump out of the pin hole and accidentally disconnect the trailer.

V-Shaped Guide

The v-shaped guide directs the gooseneck into position during hook-up, making the whole process a quick, easy one-person operation. The guide rim above the pin hole further prevents the main pin from jumping loose during transit.

Double-Hinged Ramp and Support Ledge

The 31" loading ramps are double-hinged and reinforced with a support ledge for added strength. Because both hinges rest on the ledge, even heavy track-type equipment can be loaded without risk of "peeling off" the loading ramp.

Front Outriggers

Heavy-duty pullout front outriggers (standard) provide extra strength at the pivot point where the weight is concentrated during the loading process. Spring-loaded stainless steel latches can be turned and locked in the open position, leaving both hands free to pull out or push in the outrigger.

Outrigger Construction

I-beam style outriggers are mounted on the top and bottom flange and span the entire width of the side beam for optimum strength and support. Removable pins allow outriggers to be easily removed. Close-set outriggers at mid-deck (standard) prevent planks from tipping up when load rolls over them.

able Gooseneck Trailer

Four-Beam Deck Design

The four-beam deck design can accommodate a wide range of loads, whether the weight is concentrated on the outside edges or in the middle of the trailer. The lightweight strength of Trail King's four-beam design also means you haul less trailer, more payload.

One-Piece Construction

I-beams are constructed of one-piece web and flange material and welded on all four sides to seal and protect the seams from rust. Then the entire trailer is primed and painted with a two-component polyurethane primer and paint before decking and air, hydraulic, and electrical lines are installed for complete protection from the elements – even in places you can't see.

Knuckle Trough, 3rd Lift Axle, Boom Trough

Lowered cross members covered with 1/4" MF80 steel for a knuckle trough in the rear deck area are now standard. A third lift axle is now standard and, thanks to a new suspension system, lowered cross members through the entire wheel area, including a lowered center section in the rear channel, are also standard.

Adjustable Ride Height Control

Adjustable ride height control is standard, with the controls conveniently located near the rear tail channel.

D-Rings

The deck area features seven (7) pairs of heavy-duty bent-style D-rings which wrap around the flange to protect the flange and safety chains from damage. Two additional flat D-rings are mounted on top of the main beam top flanges in the rear wheel area.

Cross Members

The deck area features 10" I-beam cross members, with 4" stub cross members for 12" centers in the outer bays, for optimum load-hauling strength and no bowing of the decking.

Sealed Electrical System

Rubber-mounted LED lights are standard, as well as a sealed "plug and play" electrical system. Rubber grommets protect the wiring wherever it runs through the frame. And should you forget to disconnect the lines before detaching the gooseneck from the bed, a replaceable jumper cable between the neck and the deck makes replacing a damaged line easy.

Liquid filled air gauge

Flag holders, front of deck and rear of trailer

Wide load sign brackets

Mud flaps

Media blasted prior to 2-part polyurethane primer and paint

TK70HDG

70,000 lbs.

TK102HDG

102,000 lbs.

TK110HDG

110,000 lbs.

Capacity (in 12')	X	X	X
10' 7" gooseneck (16" KP setting with 82" swing clearance)	-	-	X
13' 0" gooseneck (16" KP setting with 110" swing clearance)	X	X	X
50" loaded 5th wheel height	-	-	X
2nd king pin setting (40" KP setting with 86" swing clearance)	X	X	X
Gooseneck arched for increased truck frame clearance	X	X	X
5-position gooseneck height adjustment +/- 4"	X	X	X
Hydraulic self-lifting detachable gooseneck	X	X	X
(has ability to lift above or below transport positions)			
Hydraulic gooseneck support arm	X	X	X
Patented air-activated, self-locking pin on gooseneck (positive lock)	X	X	X
Gooseneck does not require ground-bearing pads for lifting	X	X	X
31" front loading ramps	X	X	X
102" overall deck width	X	X	X
24" loaded deck height	X	X	X
Deck length	24' 0"	25' 9"	25' 9"
4-beam main frame construction	X	X	X
10" I-beam cross members on 24" centers	X	X	X
(4" stub cross members for 12" centers in outer bays)			
100,000/80,000 PSI yield strength steel construction	X	X	X
1/2" x 5" outside top flanges	X	X	X
1 1/2" oak decking (raised) (NET)	X	-	-
1 3/4" apitong decking (raised) (NET)	-	X	X
Swing-out outriggers with planks	X	X	X
Pullout HD outrigger at front, double swing-outs at center	X	X	X
14 D-rings (bent style) on deck, 2 (straight) on wheel area	X	X	X
Knuckle trough at rear of deck (72" long, covered w/1/4" MF80)	X	X	X
Full depth boom trough in wheel area (covered w/10-ga. Steel)	X	X	X
Triangle cut-outs on deck and bolsters	X	X	X
25,000 lb. (5/8" wall) axles	2	3	3
3rd axle air lift	-	X	X
Axle spacing	50"	55"	55"
16 1/2" x 7" air brakes with outboard drums	X	X	X
*Anti-lock brake system	X	X	X
8.25 x 22.5 10-hole pilot mount steel disc wheels	X	X	X
255/70R 22.5 16PR radial tires (H)	X	X	X
Oil seals, one-piece	X	X	X
Air ride suspension w/raising and lowering	X	X	X
Frame reinforced for single axle booster or flip axle	-	-	X
Front bolster	X	X	X
LED lights (50 state legal)	X	X	X
Mid-turn signal/clearance light	X	X	X
3 Tail lights per side (amber in center)	X	X	X
Rubber mounted sealed lights and sealed harness system	X	X	X
Air, electrical, and hydraulics installed after paint	X	X	X
Liquid filled air gauge	X	X	X
Flag holders, front of deck and rear of trailer	X	X	X
Wide load sign brackets	X	X	X
Mud flaps	X	X	X
Media blasted prior to 2-part polyurethane primer and paint	X	X	X

DISTRIBUTED BY:

TRAIL KING Industries

*To meet 1997 federal requirements, Trail King offers two variations of the anti-lock braking system. The minimum 2S1M system is available, but Trail King recommends the 4S2M system.

All specifications are subject to change without notice. Trailers pictured in this brochure may feature optional equipment.
