Description:

The intent of the specifications is to provide bidders with the scope to govern workmanship of the related project(s) and to attest to the materials used on the project(s) located in Craighead County.

The successful bidder will furnish Craighead County with signed documentation of all delivery receipts and quantities used on each road. The prime coat should be applied at a rate of .30 gallons per square yard, unless the contractor and county agree upon a different rate for the betterment of the project(s). An Asphalt Surface Treatment design should be submitted prior to beginning the first project. This design should detail the CRS-2P and Class 2 Mineral Aggregate application rates. For the purpose of bidding, a CRS-2P rate of .35 gallons per square yard for the first treatment and a rate of .40 gallons per square yard for the second seal shall be used. An aggregate application rate of 28 pounds per square yard shall be used. These rates may change based on the results of the Asphalt Surface Treatment Design.

The successful bidder will be paid based on actual quantities used on each project.

The Pay Unit will be based off of the materials applied in place on each project. This price will include materials, equipment, labor, insurance, and all other related costs, including applicable taxes.

An authorized representative of each bidder must sign all bids.

The bid may be awarded after stringent review of all factors including, but not limited to, price, availability, quality, performance, workmanship, references, viewing recent and dated jobs of contractor, and other relative factors.
